SGS services are based on an initial remote inspection followed by an onsite inspection, which describes only what was observed at the date/time of the inspection.

This service is not intended to guarantee a SARS-CoV-2 free condition of a premise at any times and should not be relied upon for that purpose. Anyone is cautioned against interpreting the status of a particular premises based on any statement of SGS with regard to such premise's hygiene and disinfection management.

No endorsement of any premises, or the products or services offered by a premise, is expressed or implied by any information, material or content included on this statement.

The operator of the inspected premises is solely responsible for proactively applying hygiene and disinfection] methods and protocols on a regular basis and properly maintain, inspect, and manage the premises on a continuous basis [in this regard], including the training and supervising of persons acting on his behalf on such premises.
